LORENZO'S HOUSE

Younger-Onset Dementia (YOD)
is defined as symptoms of brain change before the age of 65.

32M

Family caregivers of younger-onset dementia worldwide

200%

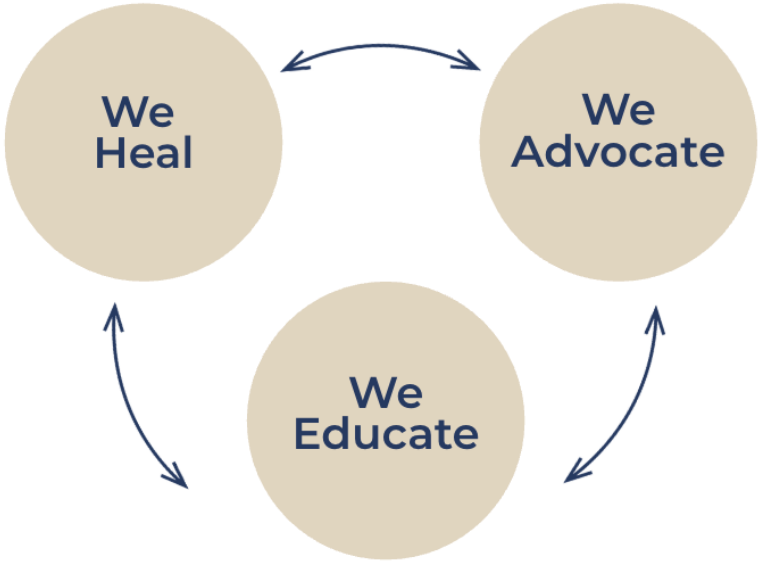
Uptick in the US of individuals diagnosed with younger-onset dementia (YOD)

This does not include those:

- *undiagnosed*
- *misdiagnosed*
- *or whose loved ones have passed*

LORENZO'S HOUSE

Our Virtual Model



We heal *in community.* ***We advocate*** *for dementia justice.* ***We educate*** *for a YOD-informed society.*

Our Programs

MATCH: one-on-one, carer to carer connection

CLUBS: virtual support groups starting at age 4 and above

SUMMIT: global, annual youth-led-to heal, advocate & educate

LORENZO'S HOUSE

Global Youth Summit

LORENZO'S HOUSE

EmpowermentPLUS

a youth inspired model designed to end dementia stigma

RECOGNIZE when we experience stigma

- **Notice** how this experience feels
- **Define** what this experience means

ACCESS personal & community toolkit with courage and intention

- **Identify** technique from toolkit
- **Determine** how to respond

EMPOWER self & others by educating & dismantling stigma

- **Respond** with empathy for self and others
- **Reflect** upon the situation
